

Clusters

Definition of a cluster: “A group of the same or similar elements (or people) gathered closely together. To gather or grow in bunches.” *More than a Bible Study... More than a Small Group... It's a **Life Group**...*

Clusters are a returning ministry from last summer. Each Cluster is designed to combine people of similar interests to learn, grow, and mature in their walk of faith together.

Band of Brothers

The number of Godly men in this world is shrinking fast; too many boys grow up not knowing what it really means to be a man of God. The purpose of this cluster is provide young men with an opportunity of fellowship, accountability, and following King David's example what it really means to be a man after God's own heart.
